- Measured by Winston Rasmussen September 2, 2016 (w.rasmussen@comcast.net)

Description: This course starts in the parking lot at Clark Street Beach and runs south on a recreational path to a turn point at Lee St. It returns and runs counter clockwise around the NWU campus on the sidewalks. It then runs south to Greenleaf and turns onto a gravel path. The gravel path loops back to the recreational trail then to the finish on a gravel path in the park. It was measured along the shortest possible route, except for the recreational path segment between Campus Dr. and the turn point near Lee Street.
